

Data of Interest - School level, not thinking by Grade level for current work

School enrollment which may need to be calculated adding all the grade levels

In-school Suspensions Percentages by Race/Ethnicity and then Calculated Composite index 1.0+ too high

Out of School Suspensions Percentages by Race/Ethnicity and then Calculated Composite index 1.0+ too high

Expulsions Percentages by Race/Ethnicity and then Calculated Composite index 1.0+ too high

Model for Percent receiving disciplinary actions and would need another visual for Composite Index
